Skills

Not sure what to put here either

Experience

March, 2017 - PRESENT

LongLeaf Communities (Woodstock, Kennesaw, Marietta) – *Final Punch Manager*

- Make sure each house before closing date is CO (Certificate of Occupancy) ready
- Clean up any unwanted imperfections around the house

Education

January, 2016 - May, 2018

West Georgia Tech, Douglasville – *Associates Degree (unf)*

Overall learned core classes and was introduced to programming. While there they showed me the basic logic and C#

June, 2018 - May, 2019

Self Studies – *Programming*

Learning what I did at West Georgia Tech. I was extremely interested in pursuing programming. I looked up languages for beginners and came across C++ and Java. I got to the point where I could make a common calculator app on both of these languages.

May, 2019 - Present

Georgia Tech Boot Camp – *Programming*

Not knowing what I was getting myself into. I signed up for a Boot Camp at Georgia Tech. Within a course of 2 months I now know how to use:

- HTML, CSS, Javascript
- jQuery, Bootstrap, Ajax, API's, Node.js
- Github Repositories

This class will last for another 4 months (November 2019) Planning on learning much more

My Coding Work (So Far)

Everything I do/will do can be see at: <https://tcutlip08.github.io/Bootstrap-Portfolio/portfolio.html>

Awards
