➢ Flexible to change and quick to adapt to situations.
➢ Assesses own strengths and weaknesses and pursues training and development opportunities.
➢ Strives to continuously build knowledge and skills.
➢ Successful working in both individual and team environments.

PROJECTS

J-BOT | https://github.com/tcutlip08/project_3 | **https://awesome-project-3.herokuapp.com/**
[Title/Role: *Back End Developer*]
- The purpose of this app is to create a safe gaming/learning environment for kids under the age of 13. We've created a gaming site where the parents are able to monitor and in the future control which games their kid is allowed to play.
- I was in charge of everything connecting to our database: seeds, models, api calls (create, read, update, delete). I was also in charge of user authentication through out the app. making sure users couldnt access certain pages unless they were signed in.
- Tools: React, MongoDB, Express, FireBase

SLR | https://github.com/tcutlip08/SLR-2.0 | **https://student-life-raft.herokuapp.com/**
[Title/Role: *Back End Developer*]
- The purpose of this app is to help student in school (primarily college) find help as well as help others in subject they are strong in. Future developments include ways to earn credits when helping others.
- I was in charge of everything connecting to our database: seeds, models, api calls (create, read, update, delete). I was also in charge of user authentication through out the app. making sure users couldnt access certain pages unless they were signed in.
- Tools: React, MySQL, Express, FireBase

EXPERIENCE

LongLeaf Communities   Atlanta, Georgia
Final Punch Manager   March 2017 — Present
- ➢ Sequences the work of all trades so that a quality product was consistently delivered within the confines of the project schedule.
- ➢ Approves materials on the project and facilitated project coordination resulting in more efficient use of the material.
- ➢ Completes project closeout including the creation of the trade contractor's punch list items and proper submission of closeout documents, meeting all deadlines.
- ➢ Proactively identifies and resolves potential problems in order to avoid unnecessary costs and delays.
- ➢ Assesses work being performed to ensure that all contract specifications were being met.
- ➢ Assures each property is complete and able to obtain a Certificate of Occupancy prior to its closing date.
- ➢ Manage and take care of undesirable imperfections for each property.

EDUCATION

Georgia Tech (Full Stack Developer/Boot Camp) — Atlanta, Georgia (Present)

Self Studies (Computer Programming) — Atlanta, Georgia

Associates Degree, **West Georgia Tech — Douglasville, Georgia**
